PROFESSIONAL SUMMARY

Dedicated Computer Science Engineering with expertise in software development, data science, and IoT. Proficient in Python, Java and web technologies. Hands-on experience in development, and IoT projects. Seeking a challenging software development role to apply technical skills and problem-solving abilities

EDUCATION

(2021 - 2025)

R P SARATHY INSTITUTE OF TECHNOLOGY

Bachelor of Computer Science Engineering
CGPA: 7.5

(2023 - 2021)

MODEL SCHOOL

Higher Secondary Certificate (HSC)
Percentage: 61%

TECHNICAL SKILLS

Programming : Java, Python.

Framework: Spring boot, Flask, Fast

Database: Postgresql, Neo4j

Devop's: Linux, docker, (AWS/Azure)

Tools & Technologies:

IntelliJ IDEA, VS Code, Postman, GitHub.

Frontend & design :

HTML, CSS, java script, Figma

LANGUAGES

Tamil

English

PERSONAL STRENGTHS

Effective Stress Management

Punctual

Quick Learner

AREAS OF INTEREST

Software Development

Network Security

Hardware Testing and Repair

Web Development

DevOps

HOBBIES

Listening to Music

Watching Movies

Hardware Repair

PROFESSIONAL EXPERIENCE

JUNIOR JAVA DEVELOPER

Nectar IT | June 2025 - Present

- Develop and maintain scalable Java applications utilizing Spring Boot framework for enterprise backend services and RESTful API development
- Design and implement database solutions using multiple technologies including Apache Solr for advanced search functionality and Neo4j for complex graph data modeling
- Configure and deploy Java applications to production servers, managing CI/CD pipelines for automated deployment
- Create detailed technical documentation, code comments, and API specifications to support knowledge transfer and maintenance
- Debug and resolve software defects efficiently, improving application performance and reducing system downtime
- Participate in code reviews and contribute to team best practices for coding standards and development workflows
- Technologies: Java, Spring Boot, AWS (EC2, S3), Apache Solr, Neo4j, RESTful APIs, CI/CD, Git

PROJECT

E-Commerce Web Application

Developed a full-stack e-commerce platform using Node.js and React. Implemented user authentication with JWT and a secure payment system using Stripe API. Designed and managed the database with PostgreSQL to handle products, orders, and user data. Built RESTful APIs for all core features including cart management and order processing. Created a responsive user interface for seamless product browsing and purchasing experience.
